
2010 REPORT TO MEMBERS

THE PENSION PLAN

The UFCW Union Pension Plan (the “Plan”) is a jointly trusted pension plan. This means that the Plan is jointly managed by Trustees appointed by UFCW Local 1518, by UFCW Local 247 and by the employers. There is a Trust Agreement setting out the Trustees’ duties and responsibilities. They include ensuring that:

- proper records are maintained;
- the terms of the Plan are administered consistently and in accordance with the law; and
- the Plan funds are invested for the benefit of members and in accordance with the laws regulating pension plan investments.

One of the unique features of the Plan is that it has five separate divisions. The pension funds are combined for investment purposes, but a separate accounting for each division is maintained to ensure that the assets of one division are not used to support the benefits of another division. The divisions include:

- Overwaitea
- Canada Safeway
- Tober Enterprises
- Miscellaneous
- Terminated Employers

The Plan is a type of Defined Benefit Plan, referred to as a negotiated cost plan. Employer and Employee contributions (if required) are payable in accordance with the collective bargaining agreements.

INVESTMENT STRATEGY AND ALLOCATION

The Trustees of the Plan have adopted an investment strategy whereby the assets of the Plan are matched to the liabilities of the Plan in terms of interest rate sensitivity and cash flows. Consequently, the Plan’s investments are in assets which have continued to provide excellent protection for the benefits promised by the Trustees. Most of the Plan’s assets are in fixed income investments such as Canadian and Provincial Government bonds, high quality corporate bonds and mortgages. The Plan also has investments in income producing real estate such as Concert Properties. Finally, the Plan has a very small portion invested in hedge funds and equities. The Plan’s exposure to equities is very small at just over 5% of the total portfolio.

The Plan's investment strategy is designed to ensure that the benefits can be provided with a high degree of certainty. Annual actuarial valuations and asset / liability modeling analyses are performed to determine if any adjustments to the investment strategy are required. In between annual reviews, the Plan's professional advisors monitor the performance of the assets, and provide regular updates to the Trustees. This ensures that the Plan continues to meet its goals and provide the level of pension benefits reported to members annually.
